## SUMMARY

Junior React Developer and recent Computer Engineering graduate with hands-on experience building full-stack web applications with React, Node.js, and SQL. Built a course management system with a React front end, a Node.js back end, and a MySQL relational database, and contributed to a Laravel e-commerce platform as a backend developer intern. Skilled in JavaScript, React, Node.js, HTML, CSS, SQL, and Git, with additional experience in PHP, Java, and MongoDB. Strong problem-solving skills, experience working in a team, and a passion for building reliable, user-friendly, and scalable web interfaces. Eager to join a development team as a Junior React Developer and keep growing professionally.

## EXPERIENCE

Mucha Web Agencia de eCommerce — https://github.com/codigo-y-tecnologia/ecommerce-agave.git — Remote
Full-Stack Developer Intern (Laravel) — 09/2025 - 03/2026

- Collaborated with a development team to build and maintain a full-featured e-commerce platform using Laravel.
- Developed backend functionality following the MVC architecture, implementing business logic and ensuring application scalability.
- Designed and managed database structures for products, customers, orders, and transactional data.
- Contributed to the development of core e-commerce features, including product catalog management, shopping cart functionality, checkout workflows, and order processing.
- Assisted in integrating payment gateway solutions to support secure online transactions.

## SKILLS

Programming Languages: Java, JavaScript, PHP, SQL

Frameworks & Technologies: React.js, Express js, Node.js, HTML, CSS, Git, GitHub, Postman, Laravel, jQuery, Firebase

Databases: PostgreSQL, MySQL, MongoDB, Firebase Realtime Database

## TRAINING & COURSES

Java, PostgreSQL, MySQL, Data Structures & Algorithms — freeCodeCamp.org

React, HTML, CSS, Javascript, Express js — Scrimba

## EDUCATION

Instituto Tecnológico Superior de Apatzingán — Apatzingan de la Constitucion, Mexico
Bachelor's Degree in Computer Science — 2021 - 2026

## LANGUAGES

English Proficient ●●●●○ Spanish Native ●●●●●

## PROJECTS

Course Management System (React, MySQL, Node.js) — Apatzingan de la Constitucion, Mexico
https://github.com/codigo-y-tecnologia/React-project-courses.git — 07/2024 - 03/2025

- Developed a web-based course management system using React.js to streamline course registration and academic record management.
- Designed and implemented a relational database to manage students, teachers, courses, and academic records.
- Implemented SQL JOIN operations to retrieve and display relationships between students, courses, and instructors.
- Built functionality for teachers to evaluate students and assign grades through the platform.
- Developed features enabling students to view available courses and enroll in academic programs.

## PROJECTS

Personal Portfolio Website (HTML, CSS, JavaScript, Formspree) — Apatzingan de la Constitucion, Mexico

https://codigo-y-tecnologia.github.io/portfolio/ — 05/2023 - 03/2024

- Designed and developed a responsive personal portfolio website to showcase my projects, professional experience, and technical skills as a React and full-stack developer.
- Built the site with HTML, CSS, and JavaScript, organized into About, Projects, Experience, Skills, and Contact sections with smooth in-page navigation.
- Created project cards with screenshot galleries, technology tags, GitHub repository links, and embedded video demos for each project.
- Implemented a contact form and a downloadable CV so recruiters can reach me and get my resume directly from the site.
- Added SEO and social sharing metadata (Open Graph and Twitter cards) with a custom preview image to improve discoverability and link previews.
- Version-controlled the project with Git and deployed it publicly using GitHub Pages.
